We invite developers of modern media of visual simulation of complex dynamic systems and users of these systems to talk about their advance in this area, share your experience, and tell about achievements.

We are particularly looking for a youth.

International Scientific and Technical Conference will be held on 4-5 July, 2017 in the Peter the Great Saint Petersburg Polytechnic University.

The Conference working languages are Russian and English.

Reviewing the reports will be of two stages

- the first - selection of the reports to be presented at the conference;
- the second (after the conference) – the reports will be selected and recommended for publication (after completion) in the following journals:
 - «University Scientific Magazine»;
 - «Scientific and Technical News of SPbPU»;
 - «Computer Tools in Education».

Proceedings will be sent for registration in the RSCI (Russian Science Citation Index).

The Conference Sections

1. Development and application of visual modeling environment of complex dynamic systems;
2. Numerical modeling of complex dynamic systems;
3. Modeling in electrical engineering and electric power industry;
4. Computer tools in education;
5. Projects of young scientists;
6. Author's presentation of:
 - new books;
 - software systems;
 - planned and completed theses;
 - lectures about the software products.

Conference Proceedings will be presented on USB flash drive

Hard copy of the Proceedings will be available upon prior request at the Organizing Committee for an additional fee (800 rub.).

How to submit abstracts and papers at the conference
