

10th International Conference on Mathematical Modelling (MathMod 2022)

Dear colleagues, we would like to invite you again cordially to the 10th Vienna International Conference on Mathematical Modelling (MATHMOD 2022 – organised by TU Wien, co-sponsored by EUROSIM and IFAC) to be held at TU Vienna on February 16 – 18, 2022 – we hope to have a conference as it used to be, with personal attendance – all info at www.mathmod.at.

As an IFAC co-sponsored conference, all full contributions will be peer-reviewed according to the standards of IFAC and, if accepted and presented at the conference, published in the IFAC-Papers OnLine proceedings series hosted at the Science Direct web service. Apart from full contributions, also discussion contributions are welcome, for which an extended abstract will be published in the MATHMOD Discussion Contribution Volume (online, with DOI).

A main part of every Mathmod conference are minisymposia that cover a specific topic within the scope of the conference. So we want to invite you also to organise such a minisymposium on a specific topic of your research interest. A complete call for minisymposia can be found at the conference homepage:

<https://www.mathmod.at/index.php/participate/call-for-minisymposia/>.

If you have any questions, please do not hesitate to contact us via e-mail: mathmod@acin.tuwien.ac.at.

We are looking forward to meeting you in Vienna,

All the best,

Inge Troch,
Andreas Körner,
Felix Breitenecker,
Andreas Kugi,
Wolfgang Kemmetmüller.

PS: MATHMOD 2022 deadlines have been extended

Please note also conference ASIM 2022 just before MATHMOD:
